TO WRITE GUIDE TO U. S. AS RELIEF JOB 6,500 Writers and Research Workers Employed.

Washington—About 6,500 writers, research workers, architects, poets, photographers, map makers and clerical workers are to be enlisted from the relief rolls to compile and write the American Guide—a set of American "Baedeker" which will enable Americans to discover America.

Harry L. Hopkins, W. P. A. administrator, announced.

The new guide book will be published in five volumes, corresponding to five natural regions of travel in the United States. Mr. Hopkins said it would furnish a wholly useful and hitherto unperformed service for the citizens of the country. The work will take ten months to complete.

Cover Five Regions

Of the five volumes, one will comprise the northeastern region, extending from Maine and Massachusetts west to Illinois and Wisconsin. West of Chicago travelers normally go to two routes, either through the north middle western states to the Pacific coast or through the southern states to Mexico and Arizona. Each of these sections will have its own guide. The Pacific coast states, including Nevada and Utah, will also comprise one region and the southern states another. Travelers going from New York to New Orleans or Florida will be able to obtain information of interest to them from one guide book.

Administration of the research and editorial preparation of the guide will be done in Washington. The staff of writers and other workers will be vested in twelve regional supervisors, who will also direct the work in each of the states in which the regional offices are located. Every other state will have a supervisor and a staff of writers, taken from the relief rolls, working in every city having a population of over 10,000. Small localities and rural sections will be covered by field trips.

Real Travel Guide.

Routes of travel will be indicated not only for motorists but also for persons wishing to see America from its rivers, canals and small streams, and for hikers wishing to follow mountain trails. Points of interest in chief cities will be enumerated, information will be provided on hunting and fishing seasons. Biographical notes will be compiled about noted citizens who have lived in various localities at one time or another. Unique libraries and museums items will be listed, attention will be directed to churches and public buildings whose distinctive architecture and art work may be studied, experimental theaters and schools will be described briefly, and all manner of historical landmarks, national parks, dams, irrigation projects, low-cost housing developments and model factories will be described.

Scanty Address Fails to Dismay Postal Men

Tower, Minn.—A letter written and posted in Finland and addressed only "Mrs. Saml A. Harja, Route 1, Box 41, U. S. A." has been received by Mrs. Harja near here despite the fact that the city, county or state was not designated.

Post office authorities in New York, knowing of Scandinavian and Finnish settlements in Minnesota, forwarded the letter to Minneapolis. Authorities there recalled that once Finnish residents in the state in Otter Tail county and addressed it to New York Mills. The post office there happened to know that the Harjus reside near Tower, and the letter was sent there.

Weather Men to Speak Language of Their Own

Washington—An international language for the weather, made up of signs and figures instead of words so as to avoid the confusion of various national languages, is to become uniform for the world's weather men.

W. R. Geertz, chief of the United States weather bureau, asserted.

Returning from Warsaw he reported that the International Meteorological organization at its eighth meeting there, with representatives of 42 countries present, adopted a program for unification of codes, symbols and units in the exchange of weather reports.

The maps on which daily weather forecasts are based will look alike the world over. A black dot will mean light rain or drizzle; a star will mean light snow; and a plain circle will mean clear, cloudless skies on every weather map, whether the observers supplying data for it speak English, French, Russian, Chinese, Arabic, or any other language.

Tell-Tale Nails

An experienced doctor, when feeling the pulse of a patient, will often assist his diagnosis by a casual glance at the finger-nails. The healthy nail is removed once in 120 days, but the rate of growth is retarded by disease. Nails are highly specialized parts of the skin, and as such are subject to bodily ailments, of which they always show signs. Serious illnesses always leave distinct transverse grooves in the nails, which gradually disappear with new growth; also, broken bones and fractures leave deep ridges which do not disappear for 18 months or more. People constitutionally strong have large, banded nails, and thick nails usually denote a strong personality, though the converse does not hold good.—The Bits Magazine.

This week We Begin The 44th Year of the Times-Virginian

NOW Bigger AND Better Then Ever

Pamplin

Pamplin, Feb. 19.—Mrs. W. R. Brightwell was hostess on last Wednesday to the Y. W. A. of the Baptist church. A missionary program was given, after which refreshments were served.

The young people of the local and the Appomattox Methodist churches held a banquet here on Saturday night.

T. Calvin Davis, of Dayton, Ohio, visited his mother, Mrs. Nicholas Davis last week.

Mrs. and Mrs. W. M. Black attended a social in Appomattox last Friday night in honor of the Rev. Mr. W. M. Thompson.

Among those from here who attended the father and son banquet in Lynchburg on Friday night were: Bobby Hughes, Billy Johnson, Herbert Richardson and Toby and Jimmy Rosser.

Miss Fannie Dixon

This section lost one of its most esteemed citizens of February 5, when Fannie Dixon, who died of a lingering illness, was buried in the cemetery of Maple Grove. She was a devoted member of the Baptist church, where she was a member of the choir. She was a native of North Carolina and had lived in this section for many years.

A. A. Baldwin, of Lynchburg, spent Sunday afternoon with S. M. Ransom.

Miss Rose Martin, of Lynchburg, spent the week with Misses Gladys and Emma Lou Ransom.

A. A. Baldwin, of Lynchburg, spent Sunday afternoon with S. M. Ransom.

Misses Dixon and family.

Mrs. James Taylor spent Monday with her mother, Mrs. R. C. Baldwin.

Mrs. W. F. Ransom had a spell of rheumatism last week.

FREE TICKETS

Read the Lee Theatre ad this week. See the names at the bottom of the ad. They will be given free tickets to a show if they will cut out the ad and present it at the theatre ticket window.

We invite inquiries from serious-minded owners of property who would like their insurance needs analyzed so that they will know what policies they should have — and what they can do without.

Women Who Have Pains Try CARDUI Next Time! On account of poor nourishment, many women suffer functional pains at certain times, and it is for these that Cardui is offered on the record of the safe relief it has brought and the good it has done in helping to overcome the cause of womanly discomfort. Mrs. Ode Young, of Leesville, La., writes: "I was suffering with irregular... I had quite a lot of pain which made me nervous. I took Cardui and found it helped me in every way, making me regular and stopping the pain. This quieted my nerves, making my health much better."... If Cardui does not benefit YOU, consult a physician.

Rocks

Rocks, Feb. 19.—A freezing rain with hail, fell here last Thursday evening, lasting most all night, and rising in temperature came Friday morning, after four weeks of zero weather.

Jim Frank and Otis Ransom, A. T. Anderson and D. W. Dinkins attended a board meeting in Appomattox last Wednesday.

Mrs. D. W. Dinkins is suffering with her knee again.

Mrs. and Mrs. James Thackston, of Mt. Airy, N. C. are the proud parents of a fine baby boy, born on February 13. She will be remembered as Miss Alice Ransom.

Rhoney Wilson, of Covington, Va. spent the week with his family near Pamplin.

Mrs. Edd Rauch spent Sunday afternoon with Mrs. James Taylor.

Mrs. A. T. Anderson spent a part of last week with her daughter, Mrs. E. M. Almond, of Ransom.

Winston Ransom was real sick last week.

Miss Rose Martin, of Lynchburg, spent the week with Misses Gladys and Emma Lou Ransom.

A. A. Baldwin, of Lynchburg, spent Sunday afternoon with S. M. Ransom.

Misses Dixon and family.

Mrs. James Taylor spent Monday with her mother, Mrs. R. C. Baldwin.

Mrs. W. F. Ransom had a spell of rheumatism last week.

LOCAL SOIL EROSION CAMP LAYS OUT PROGRAM

The work of the Technical Service of the camp headed by Mr. Wm. S. Matthews is divided into many parts and has many angles. At present, almost the entire group is busy with the establishment of a nursery about ten miles from camp. The job training activities that have been planned for the three month period ending March 31 are as follows: Marking Boundaries, Soils, Lines; Numerics; Miscellaneous Erosion Control; Bank Grading; Diversion; Forest Stand Improvement; and Mechanics.

Below are listed the groups working under the various forms:

Mr. Matlock: Driver: Sullivan; Musselman; Wyatt; Baldwin; Carrio; Childress; Counts; Davidson; Davis; D. B.; Davis; H.; Dean; Deason; S.; Freeman; Gull; Hall; Hawkins; Johnson; C. J.; Parker; Parks; Sorck; Thompson; S. J.; Wilkerson.

Mr. Oliver: Driver: Evans; Wooten, C. C.; Carney; Byrd; Hall, R. E.; Daniel; Edmonds; Lett; Hobbs; Kilgore; G. Kelley; Lett; Love; Nay; Nelson; Pike; Powell, N. J.; Powell, W. L.; Southworth; Stanley; Tanner; Theiss, C. D.; Thompson, C. C.; Tray-

Mr. Moses: Driver: Walker; Lowery; Boylen; Campbell; Conley; Dalton; Edmonds; Fields; Greer; Johnson, W.; Kilgore, P. J.; Lynn; Mitchell C. V.; Mitchell, O. J.; Markham; Peters; Puckett; Ramsey; Rob-

LOCAL SOIL EROSION CAMP LAYS OUT PROGRAM

The work of the Technical Service of the camp headed by Mr. Wm. S. Matthews is divided into many parts and has many angles. At present, almost the entire group is busy with the establishment of a nursery about ten miles from camp. The job training activities that have been planned for the three month period ending March 31 are as follows: Marking Boundaries, Soils, Lines; Numerics; Miscellaneous Erosion Control; Bank Grading; Diversion; Forest Stand Improvement; and Mechanics.

Below are listed the groups working under the various forms:

Mr. Matlock: Driver: Sullivan; Musselman; Wyatt; Baldwin; Carrio; Childress; Counts; Davidson; Davis; D. B.; Davis; H.; Dean; Deason; S.; Freeman; Gull; Hall; Hawkins; Johnson; C. J.; Parker; Parks; Sorck; Thompson; S. J.; Wilkerson.
